Verification Engineering (f/m/x)

ANTON PAAR GMBH | GRAZ AND WOLFSBERG | FULL TIME

Imagine working for a company that’s a global technology front-runner, whose customers are some of the world’s biggest corporate brands. From sustainable fuel, long-lasting batteries, and toothpaste to olive oil, beer, and vaccine development, our customers use our instruments for a range of products.

Responsibilities:
- Plan and carry out tests of hardware and software
- Create test plans and verification documentation for development projects
- Contribute to successful development by thorough testing with good result descriptions
- Ensure that our instruments and software work as expected by our customers

Requirements:
- Technical education (HTL, FH, university)
- Experience in testing (preferred)
- Knowledge of programming languages (ideally)
- Self-contained, accurate, and systematic way of working
- Interest in instruments – hardware and software
- Hands-on mentality
- Team spirit and good communication

Salary:
Your actual salary depends on your experience and qualifications. For the vacant position it will usually be set within the following range (gross per month, excluding overtime): €2,500.00 to €4,500.00.*

Flexible Working Hours
From 5 AM to 10 PM (for production and assembly as well)

Family-Friendly
In-house childcare facilities (at the Graz location, depending on availability)

Green Bonus
Daily financial bonus when you arrive by bike or public transportation

Healthy Meals
Subsidized lunch at company restaurant and a weekly fruit basket

* This position is subject to the collective agreement governing employees in the metal sector.

We do not accept applications via personnel service providers or recruitment agencies and ask all interested parties to submit their documents directly via our career site. Applications via personnel service providers will not be processed. As a matter of principle, we also do not hire temporary workers, but build on long-term, direct employment relationships.
