🚀 **Job Opening: Business Developer / Technical Writer**
📍 *Location:* Krottendorfer Str 72/1, Graz, 8052
🕐 *Type:* Part-time 8-20hrs
💼 *Company:* Logiicdev GmbH

We are looking for a dynamic and versatile **Business Developer / Technical Writer** to join our growing team. This hybrid role is perfect for someone who is equally comfortable navigating business landscapes and crafting high-quality technical content.

Key Responsibilities

Business Development:

- Identify and develop new business opportunities, partnerships, and funding channels (EU/National/Private).
- Draft and submit proposals, business cases, and pitch decks.
- Support strategic planning and stakeholder engagement efforts.

Technical Writing:

- Create clear, engaging, and accurate documentation such as technical proposals and project reports.
- Translate complex technical information into content for a variety of audiences (funding bodies, clients, partners).
- Maintain and organize documentation libraries and ensure compliance with standards.

Requirements

- Experience in business development, technical writing, or related roles.
- Excellent German /English writing and communication skills.
- Strong attention to detail, project management, and time management skills.
- Bachelor's or master's degree in engineering, Business, Communications, or a related field.

🌱 What We Offer

- Opportunity to work on high-impact international projects.
- Collaborative, innovation-driven work environment.
- Flexible working hours and remote options.
- Professional growth and upskilling support.
- Food voucher
