

Is Open Science your passion? Do you like to work in a stimulating, multicultural environment? Would you like to manage a scientific project and contribute to open science networks and initiatives? If yes, we would like to meet you!

## SENIOR RESEARCHER IN OPEN SCIENCE - POSTDOC (38.5 h/w) in Graz

### Your responsibilities:

We are looking for a **postdoctoral researcher** interested in **Open Science**. You will manage a **new H2020 research project**, coordinated by Know-Center, which will combine **social and computational methods** to study inequalities in **Open Science** and **Responsible Research & Innovation**.

You will conduct **primary research** into these areas, and **lead the development, implementation, delivery and communication of the project**. The project will start 1<sup>st</sup> October 2019, but the position could start earlier if desired.

You will work in the interdisciplinary Open and Reproducible Research Group led by Dr. Tony Ross-Hellauer, which uses evidence-based approaches to make research cultures more open, transparent and participatory through new practices and technologies. For more information, please visit:

<https://www.tugraz.at/institute/isds/research/groups/>

### Your professional qualifications:

- PhD (or equivalent experience) in Information Science, Sociology, Computer Science or a similar discipline
- International research profile in at least one of these areas: Open Science, Bibliometrics, Computational Social Science, Science and Technology Studies
- Experience in leading scientific projects (experience as a work package leader of EU projects an advantage)
- Experience with scientific and financial project progress monitoring, evaluations and reporting
- Familiarity with one or more of: bibliometrics, data science, scientific surveys, qualitative interviews
- Fluent English (Knowledge of German is a plus)
- Knowledge of project management methodologies and software tools to support project delivery
- Good organizational, communication and project management skills

### We offer:

- Cutting-edge projects in collaboration with national and international key players
- Exciting opportunities for professional and personal development
- Excellent work-life balance (flexible working schedule)
- Dynamic, creative and multi-cultural team
- Informal and stimulating working atmosphere

Under our collective agreement, the minimum gross salary for this full-time (38.5 h/W) position is €3,485 per month (14 times a year), plus a performance bonus. Higher compensation is possible, depending on your qualifications and experience.

We are looking forward to your application at [career@know-center.at](mailto:career@know-center.at)!
