The Graz University of Technology (TU Graz) is a technical-scientific research institution rich in tradition based in Austria. TU Graz is an international top performer in all its five Fields of Expertise, capitalising on intense collaborations with industry and other research facilities worldwide. Within the European higher education landscape, TU Graz is a strong player in attracting talent and resources.

The Institute of Interactive Systems and Data Science at TU Graz has an open position, available from 1st August 2020 (earlier possible) for an initial fixed-term of 1.5 years with the option to extend, for a FULL-STACK SOFTWARE DEVELOPER (f/m/d) Full Time (20-40 hours/week)

**Duties and Responsibilities:**
- Designing and implementing high-performance, scalable architectures
- Implementing and developing TU Graz research information services, including repository services
- Ensuring the integration of new solutions into the existing system architecture
- Maintaining code quality, integrity and ensuring responsiveness of applications
- Consulting on technical requirements for advanced digital research and publication services
- Sharing knowledge and best-practices through technical documentation

**Required skills and experience:**
- Ongoing or completed studies in software engineering, computer science, telematics, electrical engineering, automation technology or similar
- 3+ years demonstrated experience developing and maintaining interactive, data-driven Web applications (using standard technologies such as XHTML, CSS, JavaScript, PHP, MySql)
- Experience with software development best practices and methodologies desirable (scrum, test driven development, version control and refactoring)
- Demonstrated ability to work both independently as well as collaboratively in teams and with users
- Experience working with and contributing to open source software projects of advantage
- Excellent written and verbal communication skills in English

**We offer:**
- Access to the latest technologies
- Exciting opportunities for professional and personal development
- Excellent work-life balance (flexible working schedule)
- Dynamic, creative and multi-disciplinary team
- Informal and stimulating working atmosphere
- University's sports program
- Workplace Health Management
- Award for being the most family-friendly enterprise

Are you interested? Please apply with your complete application via E-Mail to gabriele.leitner@tugraz.at.

For this position we offer a gross salary staring with € 2,929/month (full-time basis, 14x per year). Depending on your experience and qualification, overpayment is possible. Graz University of Technology aims to increase the proportion of women and therefore qualified female applicants are explicitly encouraged to apply. Graz University of Technology actively promotes diversity and equal opportunities. People with disabilities and who have the relevant qualifications are expressly invited to apply.
