

## DEVELOPMENT ENGINEER - EMISSIONS SOLUTIONS AND AFTERTREATMENT SYSTEMS (M/F/D)

What if energy supply could be sustainable, affordable, and reliable at the same time? With its product brands Jenbacher and Waukesha and the digital platform myPlant, INNIO offers energy solutions for today—and tomorrow, in more than 100 countries, improving the quality of life for countless people. Do you want to make a difference with your work? We are currently looking for a highly skilled Emissions Solutions Development Engineer (m/f/d).

### Your Responsibilities:

- Work in a global engineering team to develop and improve emission and aftertreatment products of our gas engines by focusing on design and testing
- In-house and field testing of aftertreatment components and overall aftertreatment system validation
- Conceptual layout of after treatment systems and test installations, including related component specifications and overall system and sub-systems
- Analysis of measurement results, interpretation, conclusion and reporting
- Close cooperation with controls, design, mechanical engineering, test benches, service and manufacturing as well as with the ITO and OTR teams

### Your Profile:

- Bachelor/Master of science in mechanical engineering, chemical engineering or similar
- Experience in aftertreatment system layout and testing, component validation (catalyst, mixing & dosing, filter, valves, etc.)
- Strong interpersonal skills to work autonomously in a global matrix organization
- Good communication skills in German and English
- Driving license class B and willingness to travel (10 - 15% of working time)
- Legal work authorization to work in Austria is required (Non-EU-citizens: please attach the authorization form to your application)

The base pay is composed of the amount according to the Austrian collective agreement which is at least EUR 3.728,36 gross per month (x 14) and an over payment depending on your qualifications and experience.

### WHY INNIO JENBACHER?

- An innovative and international working environment
- Flexible working time model (depending on position and role)
- Health We Care Program - including company sport activities
- Good connections to public transport - station in direct proximity
- Transportation cost support in accordance with policy
- One of the best canteens in the area with healthy and various meals
- Attractive location in the heart of the alps which provides various outdoor sport and other leisure possibilities
