

We currently have an open position of a

JUNIOR RESEARCHER IN THE FIELD OF OPEN SCIENCE

(20 h/w)

The successful candidate will work in the emerging field of Open Science. His/her responsibilities will include developing innovative software for researchers and projects within which Open Science platforms, tools and methods are scientifically studied. These tasks require web programming and data analysis skills, as well as experience with scientific work. The candidate will be part of the interdisciplinary Social Computing Team led by Dr. Elisabeth Lex. Our goal is to make the resources of the digital age useful for people. The Open Science thematic field is headed by Dr. Tony Ross-Hellauer. The candidate will participate in various purely scientific and industry-related projects. For more information about our Social Computing Team please visit:
