For our team / area “Advanced Formulations” - Area 2 we are looking for an active, highly qualified (m/f/x) (SENIOR) SCIENTIST

**Molecular Modeling - Biologics**
PhD possible
Ref.No SK115

**Duties and responsibilities**

- Apply state-of-the-art molecular simulation technologies, both classical and/or DFT based approaches, to establish properties and understand/predict the behavior of materials in pharmaceutical production processes (e.g., for prediction of aggregation behaviour, optimize buffer composition, prediction of freeze-thaw processes)
- Develop new scientific ideas, methods and technologies
- Actively participate in project teams/ meetings/ scientific networks
- Report and present scientific/ technical results and contribute to publications & presentations

**Requirements**

- A technical or natural scientific MS degree (theoretical chemistry, bio-physics or similar) and 2 – 5 years research experience in a field related to the tasks of the project
- Knowledge about ab-initio/DFT, molecular mechanics and dynamics, coarse grained simulations as well as in pharmaceutical manufacturing processes
- Knowledge in programming (e.g., python) and familiarity with Unix/Linux systems
- Knowledge in recombinant protein production, purification and stability studies as an advantage.
- Knowledge in advanced simulation methodologies (e.g., extended ensemble techniques, optimization of classical empirical force fields) as an advantage
- Professional conduct and communication skills in dealing with international clients, partners and colleagues
- Interest and experience in performing top-level and target-oriented research at the interface of basic science and industrial application

**We offer**

- A multidisciplinary and dynamic research environment and access to highly modern infrastructure on campus of Graz University of Technology
- Opportunities for career development at the academic and industrial level
- A competitive salary (min. € 42.000,- gross/year, overpayment - depending on qualification - possible).
- Possibility to work part-time

At RCPE, we place a strong emphasis on promoting diversity and inclusion. We are also committed to encouraging women to explore opportunities within our technical environment. We actively encourage applications from women and, when candidates possess equivalent qualifications, we give preference while considering all relevant aspects and circumstances of all applications

We are looking forward to receiving your application including your CV and a cover letter.
