

Job Title: OMV 6-Month-Internship in Digitalization (all genders)

Overview of the company

As one of Austria's largest listed industrial companies and a global energy and chemicals group, OMV is working on answers to address the challenges of climate change. The agenda is to become a leading supplier of sustainable fuels, chemicals and materials with a focus on circular economy solutions by 2030, and to be climate neutral by 2050 at the latest. This is the mission of our approximately 22,300 employees.

Sustainability: Our approach

In Chemicals & Materials, OMV through its subsidiary Borealis, is one of the world's leading providers of advanced and circular polyolefin solutions and a European market leader in base chemicals and plastics recycling. Together with its two major joint ventures - Borouge (with ADNOC, in the UAE and Singapore) and Baystar™ (with TotalEnergies, in the USA) - Borealis supplies products and services to customers across the globe. OMV's Fuels & Feedstock business produces and markets fuels as well as feedstock for the chemical industry, operates three refineries in Europe, and holds a 15% stake in a refining joint venture in the UAE. OMV operates around 1,700 filling stations in eight European countries. In the Energy segment, OMV explores and produces oil and gas in the four core regions of Central and Eastern Europe, Middle East and Africa, North Sea, and Asia-Pacific. Average daily production in 2022 amounted to 392 kboe/d. Its activities also include the Low Carbon Business as well as the entire gas business.

Our business

You will get insights in

... OMV's Digital Journey
