ONE STEP AHEAD.

voestalpine High Performance Metals DIGITAL SOLUTIONS GmbH

Full Stack Developer (m/f/d)

Job-ID: V000004939

Location: Kapfenberg/Vienna

Start date: as soon as possible

Closing date: 01/18/2022

Working Hours: Full-time

Introduction

Apply now and join our Data Science & AI Team at DIGITAL SOLUTIONS. We are a highly ambitious team of open-minded people and play a lead role in the digital transformation of our division's global company network.

We are excited to appoint a *Full Stack Developer (m/f/d)* in Kapfenberg/Vienna. The position offers a unique opportunity to play a key role in implementing data-driven products & services that secure the future operational excellence of our enterprise.

The primarily desired job site is Kapfenberg, Austria, with a certain share of remote work. Vienna is also possible as place of employment but will be accompanied by regular travel to Kapfenberg.

voestalpine High Performance Metals DIGITAL SOLUTIONS GmbH is the innovative partner of the High Performance Metals Division within the voestalpine Group. We provide scalable products and solutions in the areas Data Science & AI, Industrial IoT, Automation & Robotics, and Sensors.

Please find further information on our website:

Job description

- » Work with an agile mindset and practice agile software development
- » Design, develop, and maintain production-ready web applications in Python and Django
- » Work closely with Data Engineers (m/f/d), Data Scientists (m/f/d), and DevOps Engineers (m/f/d) to develop scalable application architectures for data-intense applications
- » Pro-actively engage with domain experts to understand their needs and lead through the implementation of user interfaces
- » Develop a solid understanding of our production processes and our intra- and intercompany value chains
- » Develop microservices and APIs

- » Stay on top of latest technology developments and continuously contribute to the transfer of software engineering best practices across several globally located data teams
-

Qualifications

- » Strong software engineering and programming skills in Python and JavaScript
 - » Practical experience with agile methods and DevOps practices (CI/CD using e.g. GitLab, containerization/Docker, etc.)
 - » Extensive knowledge of Django stack (Django, JavaScript, HTML, CSS, ...) and modern web frameworks, such as React or Angular
 - » Good knowledge of relational databases and SQL
 - » Experience with git, Unix/Linux, and shell scripting
 - » Fluently written and spoken English and German
 - » Willingness to travel (depending on job site)
 - » Experience in UI/UX for data-intense applications and visualizations
 - » Good understanding of basic Data Science (statistics, data visualization, Machine Learning, ...) and knowledge of related Python libraries (e.g. pandas, scikit-learn)
-

What we offer

Salary Package and Benefits: The collective minimum salary agreement for this position is € 3.274,67 gross (14 x per year). The actual payment depends on the particular qualification and experience.

voestalpine offers its workforce an attractive and appreciative working environment: We support with an extensive initial introduction phase, regular on – the – job trainings, flexible working hours and annual appraisal interviews. We enable certain perquisites and benefits for different commercial partners and with a good course of business all employees will be paid an additional annual bonus. Employee participation is of particular importance for us; currently employees of voestalpine hold 14% of the shares.

The fact that voestalpine is a globally leading steel and technology group today is primarily thanks to its approximately 49,000 employees. We are constantly working to create a modern working environment that values diversity, equal opportunities and the joy of innovation.

We are looking forward to receive your application.

More information about our application process can be found on the first page of our application form and in the “FAQs to apply”.

Please be aware that benefits may vary depending on location.

If we have sparked your interest, please use our online application form. Our CV - parsing tool makes your application even faster.
