

Stand out from the crowd

Beyond
by BearingPoint.

Are you looking for a cutting-edge software company that places you at the forefront of technical innovation and puts your skills center stage?

Beyond by BearingPoint is a leading ecosystem orchestration and digital platform provider, powering organizations to launch new services at speed and grow revenue in an era of cloud, IoT, AI and 5G by utilizing our digital platform and SaaS BSS. We're building our team with the best people, and that's where you come in.

Software Engineer (m/f/x)

Premstätten | Full-time | Immediate Start

What you'll be doing:

- You'll be actively involved in software development projects from requirements engineering to successful go-live
- You'll work on design and implementation of the software architecture with different technologies (AWS Serverless, Kubernetes, Spring)
- You'll develop new innovative software solutions with the team to bring new features to our customers
- You'll implement quality assurance measures / analysis and eliminate software errors

What you bring to the role:

- Completed IT education or comparable qualifications (ideal for career starters)
- Knowledge or experience in software development with Java
- Knowledge in the conception of database modeling using SQL
- Rapid understanding and interest in learning and using new technologies
- High degree of initiative, reliability, determination and willingness to learn
- A collaboration mindset with an independent and accurate approach and willingness to work in an agile team
- Communication skills in English (verbal and written). German would be an asset.

What's in it for you:

- You'll work globally across a variety of projects in multiple international locations
- You'll continue to develop your skills with cutting edge technology in an agile working environment.
- You'll join a diverse and inclusive culture and enjoy our regular company and team events to ensure we continue to grow together.
- You'll have the opportunity to partake in a variety of training and upskilling.
- You can avail of our multiple location specific benefits such as flexible working hours and partly working from home.

For this position we offer a minimum salary of EUR 2.600,- gross per month (Junior); EUR 3.500,- gross per month (Senior). We offer payment in line with the market depending on your qualifications and experience.
