

Bringing water to life

## What is the Opportunity?

At **Ovivo**, we offer you the opportunity to expand your skills and professional experience while collaborating with worldwide experts in water treatment. As **Structural Steel Engineer** (m/f/d), you will be responsible for structural analysis and design according to European and American standards.

Joining **Ovivo** means being part of a global team of innovative and passionate professionals who are committed to preserving water, our planet's most critical resource. It also means combining our efforts and talents towards a more sustainable future together.

The role is based in Raaba-Grambach / Austria

## What is the role?

Independent Structural Steel Engineer

- Joint creation of the steel construction design with the CAD team, taking into account project-specific requirements and actual operating conditions.
- Preparation of static and seismic calculations and reports for various plant components (skids, pipe racks, structures) according to European and American standards.
- Coordination of the CAD team regarding the necessary static and seismic adaptation and optimization of steel structures.
- Node calculations (welds and bolted connections).
- Weldability testing and calculations according to standards.
- Collaboration with international teams, as well as with suppliers and customers in all project phases from planning to installation.
- Communication and coordination with external structural engineers regarding review and approval of structural analysis.
- Calculation of pipe stresses
- Continuous updating of structural analysis standards
- Active participation in standardization
- Further activities to be defined upon the evolution of Ovivo's business.

## Does this sound like you?

- Technical education in the field of civil engineering.
- Several years of experience as a Structural Steel Engineer in the industrial sector Oil&Gas, Power, Water Treatment.
- Very good knowledge of InfoGraph and Hilti PROFIS.
- Good knowledge of standards like IBC, ASCE 7, AISC, ASME, ASTM, EC 1990, EC 1991, EC1992, EC1993, EC1998
- Excellent English language skills (spoken and written), German is an advantage.
- Independent, responsible, and structured way of working.

Bringing water to life

- Unlimited and unrestricted work permit for Austria is required (for non-EU citizens: please attach to the application)
- Willingness to travel internationally, if necessary.
- Driving License.

### Why work at Ovivo?

We offer you:

- A competitive salary
- A collegial, dynamic, and collaborative corporate culture in an innovative company
- A modern infrastructure and working environment.
- Varied tasks in a future-oriented company
- Wide range of opportunities for personal development
- Flexible working hours
- Depending on education and professional experience a collectively minimum yearly salary of EUR 60.000,00 gross for full-time-employment (38,5 hours/week) applies to this position.

At **Ovivo** we are committed to providing working environments where everyone is included and treated fairly and with respect.

If you are interested and your profile matches the above, we are pleased to receive your full application (CV, diplomas, Reference letters, work-permit in case of non-EU-citizens). Please submit your application electronically directly over our career-page.
