parkside

Web/CMS Developer
—
(F/M) — Graz — Fulltime

What we are about

We develop and realize web and mobile applications and software solutions for domestic and international clients with a high standard of design, usability, and quality. Besides the DACH-region we focus on the US market and value our clients based in Los Angeles, San Francisco, and Seattle. We operate internationally, but our headquarters are in Graz.

Do you want to work with and learn from A-level developers from more than 15 countries?

Then join Parkside and grow with us!

Your Responsibilities

In your role as a Web/CMS Developer you develop and optimize responsive websites and portals in WordPress or Typo3

– You develop creative solutions, customized for our client's needs

– You actively participate and take ownership throughout the whole development process

– You closely cooperate with the designers, project managers, and QA

Some of the stuff our Web/CMS Developers have worked on before:

– Implemented subscription handling including payment workflow, invoice documents, subscription upgrades and multi-license access for online content

– Implemented KPI dashboards in Splunk including data logging, search queries, and visual representation

– Implemented a Kiosk application (Windows 10 – Desktop and Tablet) including an online CMS to manage client access in a centralized way

– Built an online planning tool for terrace decks including product selection, optimization algorithms, and planning document

– Built a CMS system for a company network which allows them to use selected content from the main CMS on the other network websites with one click

What we expect

– Relevant professional or project experience in the area of CMS development or an ongoing/completed program of study at a university or technical college with an emphasis on computer science or software engineering

– Good command of PHP, CSS3, JavaScript, Twitter Bootstrap, jQuery, SASS/LESS as well as MySQL or Postgres

– For Typo3: good command of TypoScript, Extbase and Fluid

– Nice-to-have: Webpack, Gulp, ES6, React, Docker

– Enthusiasm for User Experience (usability, accessibility) and a detail-oriented, quality-focused work style

– Motivation, passion, and a keen interest to learn new things and constantly evolve

– You don't speak German? No big deal, English is our main language

What you get

– Extraordinary projects for domestic and international clients with strong commitment to design, usability, and quality

– Better together & with a smile: an international and highly skilled team consisting of people from more than 15 different countries welcomes you from the first day on

– You work with state-of-the-art technologies, and you can choose your development devices

– A modern office environment in the beautiful university town of Graz known for its Mediterranean flair

– The Parkside Academy as well as participating in dev conferences (e.g. ReactiveConf, dotJS) gives you the opportunity to continuously improve your skills

– A long-term employment (full-time or part-time, min. 30 hours/week) with flexible working times and compensatory time-off

– Your monthly gross salary will be around € 2,400 to € 3,300 – (based on 38,5h/week, no All-In) depending on your qualifications and experience
