

PRODUCT MANAGER

(f/m/d)

Job Description

You will work on product management and product marketing for RFID + NFC test and system products, as well as for RFID + NFC system IP blocks. In cooperation with CISC engineering teams you will define new products and product features utilizing your market insight gained from communication with our customers supported by our sales team.

Your Responsibilities

- Define market-oriented products
- Define and maintain product roadmaps
- Define product marketing together with sales and corporate marketing
- Cooperate with lead customers and strategic partners
- Participate in customer meetings and trade shows
- Cooperate with CISC engineering teams for definition of new products and product features

Your Professional-Profile

- High customer orientation
- High communication skills
- Understanding of electronic products
- Understanding of product supply chain for electronic products
- Experience with MS Office (i.e. Word, Excel, Powerpoint)
- Interested in active interaction with social media

Your Personality-Profile

- Balanced mixture of team worker and independent and flexible work style
- Project execution on your own responsibility
- Your satisfaction comes from providing products and solutions to our customers
- Willingness to travel
- Organized working style
- Excellent English communication skills are mandatory
- German communication skills are appreciated

Min. Experience Level: You bring some years of experience from first professional engagements preferable in the semiconductor or electronic market.

Education Level: University **degree** or comparable education in Business Administration, Sales & Marketing, or Engineering.

As a Company we offer

- As a highly awarded company CISC has more than 700 engineering projects with world-wide customers (EU, US, CA, CN, JP, BR, KR, ...) successfully finished and executed more than 70 international R&D projects with several 100 person years effort.
- We offer a family friendly environment with highly flexible working times.
- We support your individual development where you can be yourself and your opinion counts.
- Location:
 - Klagenfurt, Austria, Lakeside Science & Technology Park; or
 - Graz, Austria, Historic city center at Stadtpark.

Payment: This position is subject to the collective agreement for employees in trade and industry in information service and consulting, employment group IV (www.ingenieurbueros.at/verband/de/kollektivvertrag). Independent from that CISC will pay a competitive package to reflect your professional experience. If you are interested in this opportunity, please apply online at <https://www.cisc.at/job-application/> with a motivation letter and your resume attached or send us your application: jobs@CISC.at
