Software Engineer (Intern)

6 months / Remote or Zurich

About us

- We are a young Swiss startup in the field of HR-tech
- Our goal is to inspire remarkable careers via authentic connections
- Talents and companies in the DACH region use our platform careerlunch.com to intelligently schedule informal lunches between employees and their prospective colleagues, so they can get to know each other without usual interview stress
- Our solution is already used by some of the most known companies in the world, such as Google, Deloitte, and HUGO BOSS

Why us?

- Compact but growing team – your opinion will matter
- No legacy code and freedom to experiment with the solutions that you like
- Code reviews, strict TypeScript + ESLint checks, tests, CI/CD
- We donate monthly to the OSS of your choice
- We value rationale over hierarchy and prefer pragmatic solutions
- Work remotely if you like it
- Free lunch every time you host a CareerLunch
- Possibility to start a full-time position after completing the internship

Your Role

- Evaluate business requirements and implement the right technical solutions
- Deliver new features and refactor the existing code
- Collaborate with the Product Owner, CTO, and your colleagues
- Work on a project used by thousands of people
- Build a cool company with us

Your profile

Minimum requirements:

- Experience in building full-stack web apps touching both server and client sides using **TypeScript**, modern **React** (functional components and hooks), **GraphQL**, **Relay**
- Solid knowledge of modern async **JavaScript (ES6+)** in browser and node.js environments
- Some experience working with medium-large (> 50k LOC) projects

Preferred qualifications:

- Bachelor's degree in Computer Science, a related technical field, or equivalent practical experience
- Passionate about your work, results-oriented, used to remote collaboration and require minimal supervision
- You can express your thoughts well during technical discussions
- Confident with basic build tools like **webpack** and **babel** and can navigate the vast JavaScript package universe (**NPM**, **Yarn**, **pnpm**)
- Deployment tool: **docker**, **Kubernetes**, **helm**, **telepresence**, and **skaffold**

Join us

1. Meet our team for a **Virtual + Tech CareerLunch** on:
<https://www.careerlunch.com/companies/careerlunch-ch>
- Send your CV and 2-3 lines about why you would like to work at CareerLunch to konstantin@careerlunch.com to accelerate the process.
