

BECOME PART OF THE COW UNDERSTANDING REVOLUTION.

WHO WE ARE

smaXtec is an innovative, high-tech growth company, which has developed a unique comprehensive monitoring system for cows that collects and analyses physical data in real-time. The collected data enables the user to react to events and changes at an early stage. The system highly contributes to animal health and towards economic and ecological success of dairy farms. As a leading and fast-growing agricultural technology company, we are always looking for committed, competent and passionate employees.
