

Know-Center is looking for a motivated

PROJECT MANAGER (38.5 H/W) IN GRAZ

in our Knowledge Discovery Area. Together with our cooperation partners from academia and industry, we work on innovative topics related to Machine/Deep Learning and Artificial Intelligence. This entails projects within which we attempt to generate comprehensive added value in the form of new knowledge based on the existing data sets. Your role will be managing these projects.

Your responsibilities:

- Managing industry and research projects
- Communicating with customers and project partners
- Presenting project results
- Creating the project plan in consultation with the customer
- Time and resource planning and tracking within the project
- Coordinating the project team
- Reporting and marketing
- Active knowledge exchange within the team

Your qualifications:

- Min. 3 years of experience in project management
- Teamwork, independence and excellent communication skills
- Fluent German and English, spoken and written
- Completed degree in computer science, software development, telematics, mathematics, statistics or a comparable science / technical study is a plus
- Previous knowledge in Data Science, Machine Learning, Artificial Intelligence is a plus

Interest in:

- Software development and project management
- Current research topics, e.g., Deep Learning, Natural Language Processing, Artificial Intelligence
- Collaboration with scientists, data scientists, students and software developers

We offer:

- Innovative, challenging and diverse tasks in multiple domains and within various projects
- Exciting opportunities for professional and personal development
- Dynamic, creative and multi-cultural team
- Excellent personal work-life balance (flexible working time)
- Informal and stimulating working atmosphere

Under our collective agreement, the minimum gross salary for this full-time (38.5 h/W) position is €2,979 per month (14 times a year), plus a performance bonus. Higher compensation is possible, depending on your qualifications and experience.

We are looking forward to your application at career@know-center.at
