## Application Analyst (PLM) (m/f/d)

Digital Development

Innsbruck, Austria

[Apply Now](#)

Professionals  
Full-Time 38.5 h  
Permanent

### Your Tasks

- Support for PLM end-users and PLM system maintenance; analyze issues and change requests; implement, test and deploy smaller to medium-size changes, mainly of technical nature
- Improve operational efficiency and effectiveness through automation and process improvements
- Coordinate various PLM topics, and establish and maintain professional relationships with various stakeholders (e.g. end-users, key-users, PLM project managers, IT Helpdesk, PLM partner company); provide training and obtain valuable feedback to improve support
- Create and maintain internal knowledge bases and validation documents (GxP)

### Your Profile

- Bachelor's degree or higher degree (University, FH) in Information Systems, Computer Science or a related field
- Strong interest in driving digital transformation, including analytical, planning, and organizational skills, with a proactive approach to problem solving
- Several years of hands-on experience in supporting end-users and/or key-users in product development processes using PLM and/or PDM systems (with mCAD, eCAD repositories and workflows); and hands-on experience in validating GxP computer systems, preferably in the medical device or pharmaceutical industry
- Enjoy communicating with people, helping and training them and solving challenging problems related to IT applications
- Excellent English and German skills, both written and spoken
