

WE ARE HIRING

Frontend Developer Senior (m/f/d)

We want you - for further development of our IoT cloud!

We are looking for a motivated and passionate frontend developer as soon as possible for our team in Klagenfurt.

What awaits you

Sensolligent is a company based in Klagenfurt, Austria and Frankfurt, Germany. We focus on IoT cloud solutions and simulation software. We are a young, dynamic team working with the newest technologies. Our goal is to optimize industrial processes and bring our customers into the 21st century. Our IoT solution reduces complex machine data into easily understandable information and enables companies to view and improve their operations with ease.

Join us in building the industry of the future.

As a frontend developer you will...

- Develop Big Data dashboards that focus on customer specific key values for a quick visual evaluation of the current state of his production plant.
- Aid in developing data centric reports for further evaluation of the performance of the system.
 - Work in an interdisciplinary, dynamic team on promising projects.
- Visualize live data of production plants in a performant way on our IoT platform.
- Develop and customize dashboards that have to meet a wide variety of demands.
 - Develop new features to enable our customers the most possible benefit.
 - Use innovative technologies and suitable methods of modern software engineering, such as mockups, usability tests, peer reviews, continuous integration.
 - Optimize our software for better functionality, elegance and efficiency.

Ideally, you have experience

of 5+ years working as a frontend developer, with React, Javascript, Typescript and CSS

Even better, if you have also experience with

Docker, Webpack, Jest, Apollo and GraphQL

Gross annual salary: 45.000,00 EUR for full employment

Overpayment possible depending on qualifications and experience
