The Austrian Agency for Research Integrity (OeAWI) was founded as an association in 2008. Its 48 members are public and private universities, universities of applied sciences, non-university research institutions as well as research funding organisations.

The agency raises awareness for good scientific practice which is a matter of global concern, therefore we are very active on the international level and in several EU-funded projects.

OeAWI is seeking candidates for a part-time position to support the Agency’s involvement in two EU funded Horizon 2020 projects: Standard Operating Procedures for Research Integrity (SOPs4RI; https://sops4ri.eu/) and Responsible Open Science in Europe (ROSiE; https://cordis.europa.eu/project/id/101006430/de).

### Project staff member

Part-time (e.g. 30 h/week), 2.5 years fixed term contract

**Responsibilities:**

- Facilitation, organization and coordination of the pilot tests in eight selected partner institutions in cooperation with project partners (SOPs4RI project);
- Analysis of the relevant data and input from the pilot testing phase in cooperation with project partners (SOPs4RI project);
- Supporting other working groups during the piloting phase;
- Supporting literature mapping activities (ROSiE project);
- Facilitation, organization and coordination of co-creation workshops (ROSiE project);
- Rigorous and independent research and analysis using academic and other published sources;
- Production of high-quality analysis and synthesis documents and reports.

**Your profile:**

- Advanced university degree (Master’s or equivalent), preferably in the field of social sciences
- At least half a year of relevant professional experience in research projects
- Excellent knowledge of English
- Good knowledge of qualitative (action and participatory-based), quantitative (online-based surveys), cost benefit analysis methods and tools
- Excellent IT skills, including in standard office software and in database management and online communication tools (Zoom, MS Teams, Webex)
- Great attention to detail and quality of work while meeting deadlines in a dynamic and heavy workflow
- Ability to work effectively in a team environment, at international level and to maintain trust-based working relations
- Ability to work independently, with strong self-motivation and reliability
We offer:

- Participation in interesting and important activities
- Open, dynamic and inclusive work environment
- Respectful, attentive, highly committed and experienced team of professionals with different expertise and background
- Office in central location (Wien Mitte)

The appointment begins at the earliest possible date (June 2021).

The Austrian Agency for Research Integrity offers an attractive remuneration package. The salary for this position is depending on qualification and experience and is oriented towards the standard personnel costs and salaries for FWF projects: EUR 42,300 € gross/year for an employment based on a full-time basis. More information on: https://www.fwf.ac.at/de/forschungsfoerderung/personalkostensaetze.

Please submit your application, including your CV and letter of motivation by e-mail to melanie.lettl@oeawi.at.

Application deadline: 26th of May 2021
