TECHNOLOGY** BE  
YOUR CREATION?

THE FUTURE STARTS HERE

## **Student Position: Software Engineering for Customer Application Support**

We are looking for a student studying in the greater area of Graz who would like to support us part-time, in parallel to their studies, and would like to gain hands-on experience in an international high-tech company. In this position you will support our team in antenna design and validation at our **NXP site in Gratkorn**.

### **Your Responsibilities:**

- Supporting the Customer Application engineers
- Designing, developing, and maintaining Python scripts and tools for process automation
- Possibly supporting customer demos and related customer support material (no direct customer interaction)

### **Your Profile:**

- Ongoing studies (University/FH) in Computer Science, Software Development, Information and Computer Engineering or similar
- Communicative, flexible, and organized working style
- Solid skills in C and Python programming
- Basic knowledge of Version Control systems (git/svn)
- Basic knowledge in embedded programming is an advantage
- Some JavaScript basics are nice to have, but not mandatory
- Solid knowledge of MS Office (Word, Excel, Power Point)
- Solid English skills (conversation and writing)
- Availability around two days a week or more

### **We Offer:**

- Opportunity to learn and grow in an international organization across multiple projects
- Cooperation and collaboration with domain experts in the area of Automotive, Security and Connectivity
- Flexible working times
- On-site free beverages and fresh fruit
- Social events (student get-togethers, networking opportunities, etc)

and many other benefits!

The minimum salary for this position is EUR 16- gross/hour.
