

🚀 AI & Beyond Incubator - Summer Internship (10 Weeks)

Start: Monday 28th June, 2027

Join Bitmovin's AI & Beyond Internship Incubator! We are a global leader in video streaming tech, and we're looking for tech-savvy, entrepreneurial students ready to dive into AI-driven projects that are revolutionizing the industry.

Why You Should Apply:

- **Impact:** Explore groundbreaking AI-powered initiatives that redefine not just video streaming, but technology in various fields, fostering innovation - the sky is the limit.
- **Mentorship & Growth:** Get hands-on experience, guidance from top experts, and learn skills that will set you apart.
- **Career Opportunities:** Your work could be included in our products, showcased at major events, or even turned into independent innovations!
- **What to expect:** regular talks from industry leaders, pizza nights, foosball, and demo days with your fellow interns.

What You'll Do:

We have a diverse array of projects in mind, yet we are equally eager to hear your ideas. If you're passionate about a particular project or have a concept in mind, we welcome your input and creativity. Let's collaborate to bring your ideas to life!

- Engage in diverse AI-driven projects or pitch and develop your own innovative ideas within small, agile teams.
- Successful projects will be presented at major trade shows in the USA and Europe, with opportunities for integration into our products or spinning them out as independent ventures.

How to Apply:

Via our careers page, submit your CV, school certificate (Zeugnis), and a short video telling us:

1. Your goals for this internship.
2. A time you hacked a system (non-computer) to your advantage.
3. The AI or video project you'd love to work on and why.

Video tips: Keep it 2-3 minutes. Be real and show your passion!

Ready to make an impact? Apply now via bitmovin.com/careers.
