

ARE YOU READY FOR THE BEST INTERNSHIP ABROAD IN SUMMER 2026?

➤ GO INTERNATIONAL

ITALY

INTERNSHIP: Cement & Materials Laboratory

Place of work: **Fanna**

Period: **4–6 weeks in July or August 2026**

YOUR JOB

As a Laboratory Intern, you will support research on the performance and rheology of cements with alternative or micro fine materials including their use in sustainable cement. You will work with the Alpacem lab teams in Fanna and San Vito on experimental tests, assist QM, and learn to perform cement analyses and design sustainable, low impact cement mixtures.

YOUR TASKS

- Perform **laboratory analyses and testing** on cement and related materials
- Support the Quality Manager in **evaluating experimental results**
- Collaborate with laboratory teams to **study material performance and concrete applications**
- **Document and report findings** following industry standards

YOUR SKILLS

- Basic **knowledge of construction materials, inorganic chemistry, and mineralogy**
- Familiarity with **lab instruments** for material analyses
- **Detail oriented, analytical**
- **Fluency in English**, Italian is a big plus
- Currently pursuing **studies in Chemistry, Materials or Civil Engineering**

YOU GET

- A **unique internship** position
- A **top salary** of at least 1.600 euros (net. p.m./respective equivalent)
- A **huge kick-start** for your career
- Travel and accommodation **costs are covered**

YOUR COMPANY

Alpacem, part of the Wietersdorfer Group, is the market leader for cement, concrete, and raw materials in the Alpe-Adria region. With around 780 employees, the company produces high-quality products at 29 locations across Austria, Italy, and Slovenia. Your base will be in Fanna, home to one of its three integrated cement plants.

The Austrian Wietersdorfer Group is an international industrial company in the building materials and piping sectors. Its business areas include cement & concrete, lime, industrial minerals, GRP, and thermoplastic piping systems. With its subsidiaries Alpacem, InterCal, Amiblu, HOBAS, O-Tek, POLOPLAST and Calcit and its participations, the family group operates in 30 countries.
