

ARE YOU READY FOR THE BEST INTERNSHIP ABROAD IN SUMMER 2024?

➤ GO INTERNATIONAL

MEXICO

HSE Professional Intern | M/F/X

Place of work: **O-tek Mexico S.A. de C.V., Aguascalientes/Mexico**

Period: **6 weeks | July 2024**

YOUR JOB

A professional intern responsible for updating process risk analyses by detecting, assessing, and containing potential risks in the manufacturing process of Glass Fiber Reinforced Polyester (GRP/PRFV) pipes and across various supporting processes, including quality, maintenance, raw material storage, and finished product warehousing.

- **Understand and comprehend** the production processes of Glass Fiber Reinforced Polyester (GRP/PRFV) pipes in Mexico.
- **Detect, classify and issue** recommendations to eliminate process risks that could result in losses to personnel and equipment.
- **Create and update** functional materials and information for employee training.

YOUR SKILLS

Strong interest in manufacturing processes, equipment operation, and their interrelation with people.

- **Focus on safety and personal care:** Full conviction that the well-being and safety of individuals are the foundation for any productive system.

- **Communication:** Strong communication skills, establishing effective channels with all levels of the organization.
- **Analysis:** Strong analytical and problem-solving abilities.
- **Languages:** For this internship fluency in Spanish and English is required.
- **Education:** Industrial engineering, production process engineering with a focus on health, safety and environment and production processes.

YOU GET

- A **unique internship** position
- A **top salary of at least 1,440 euros** (net)
- A **huge kick-start** for your career
- **Travel and accommodation costs** are covered

YOUR COMPANY

Amiblu is a global manufacturer of GRP pipe systems with its headquarters in Klagenfurt. The Amiblu Tech Centre is located in Norway. Here, around 60 colleagues from Amiblu Norway and Amiblu Technology research and develop new, improved methods and processes. The site in Norway forms the technological centrepiece of Amiblu, where new systems are planned and designed and in some cases even installed on other continents using Augmented Reality-technology. For your internship at the Amiblu Tech Centre, we not only offer you a top salary, but also cover all travel and accommodation costs.

MOROCCO

Mechanical Engineering | M/F/X

Place of work: **Amitech Maroc, Casablanca/Morocco**

Period: **6 weeks | July 2024**

YOUR JOB

Are you a student pursuing a degree in Mechanical Engineering with a passion for innovation and a desire to gain hands-on experience? Our exciting summer internship offers you the chance to contribute to the development of cutting-edge machines for the production of GRP pipes.

YOUR RESPONSIBILITIES

You will be an integral part of our dynamic team working on the design and development of machinery tailored for GRP pipe manufacturing. Your responsibilities will encompass:

- **Conceptual Design:** Collaborate with our engineering team to brainstorm and generate innovative concepts for machines that enhance the efficiency and precision of GRP pipe production.
- **Data Analysis:** Analyze data from tests and experiments to identify areas for improvement and refinement in machine design.
- **Documentation:** Maintain comprehensive documentation of your work, including design iterations, test results, and any modifications made during the development process.

YOUR SKILLS

- Enrolled in a **Mechanical Engineering program** or a related field at an accredited university.
- **Strong problem-solving skills** and a keen interest in machine design and development.
- Proficiency in **CAD software** is a plus.
- **Excellent communication skills** and the ability to work collaboratively within a team.
- **Fluency in French is required.** Advanced knowledge of English is a great advantage.

YOU GET

- A **unique internship** position
- A **top salary of at least 1,440 euros (net)**
- A **huge kick-start** for your career
- **Travel and accommodation costs** are covered
