

NXP Semiconductors is offering an
Graduate DevOps Developer (f/m/d)

Job Responsibilities:

- Work with the Atlassian suite, including Bamboo and Bitbucket, to establish and maintain CI/CD pipelines
- Configure, deploy, and maintain services running on the AWS cloud platform
- Collaborate on the implementation of security measures to protect our cloud infrastructure.
- Learn and apply new AWS solutions to enhance our existing infrastructure.
- Monitor and troubleshoot infrastructure issues as they arise.
- Collaborate with cross-functional teams to optimize performance and reliability.
- Document processes and procedures for future reference.
- Stay up-to-date with industry trends and best practices in DevOps and cloud security.

Your Qualifications:

- Bachelor's or Master's degree in Computer Science, IT, Software Engineering or a related field (or equivalent experience).
- Strong interest in DevOps practices and cloud infrastructure.
- Eagerness to learn and adapt to new technologies and solutions.
- Familiarity with the Atlassian suite (Bamboo, Bitbucket) is a plus.
- Basic knowledge of AWS cloud services.
- Strong problem-solving and troubleshooting skills.
- Excellent communication and teamwork skills.
- Good communication skills in English (spoken and written).
