

Grow your Career with us

Are you looking for a cutting-edge software company that places you at the forefront of technical innovation and puts your personal development in the centre stage? Then become part of our international and dynamic team! **Beyond Now** is an international leading ecosystem orchestration and digital platform provider, powering organizations to launch new services at speed and grow revenue in an era of cloud, IoT, AI and 5G by utilizing our digital platform and SaaS BSS. The headquarter is in Austria, however we're building our team globally with the best people, and that's where you come in.

Software Engineer (m/f/x) – the chance for tech graduates

Graz (AUT) hybrid | Full-time (38,5h/week) or Part-time (minimum 20h/week) | Immediate Start

What you'll be doing:

You'll be warmly welcomed as a member of a multinational agile team consisting of highly skilled software enthusiasts. Within the Engineering team, these might be your main tasks:

- Your code will be deployed to our worldwide used cloud-based enterprise solutions.
- You'll play an active role in all aspects of the software engineering life cycle, from design to implementation, quality assurance and defect fixing.
- You'll implement innovative software solutions in Java and Typescript using Spring, React or NodeJs.
- You'll work with state-of-the-art technology stacks based on cloud native technologies (K8S or serverless).
- You'll be using state of the art cloud-based infrastructure (CI/CD, code analysis, monitoring...).
- As you gain experience in Software Engineering, after a while we expect you to take over responsibility to coach / lead others.

What you bring to the role:

- You are in the final year of your study *or* have completed an IT education (HTL, FH, TU in Software Engineering, Software Design, Cloud Computing, eHealth, Data Science, Information and Computer Engineering or similar) *or* gained comparable IT skills as a self-learner.
- You have knowledge in software development with focus on Java and/or TypeScript
- You have already put theory into practice - in other words, you have first relevant experience in programming, whether professionally, in student or private projects (1-2 years' experience in this field would be beneficial).
- You are a quick learner and interested in continuously augmenting your skills.
- You are constructive, outcome oriented and can inspire others.
- You have the willingness and the potential to take on responsibility and support others.
- You are a good team player, listen to others actively and come up with your own ideas.
- You work independently, but keen network and know when it's time to fall back on it.
- You have excellent communication skills in English (verbal and written). German would be an asset.
- You have valid work permit for Austria.

What's in it for you:

- A few Beyond Now **Benefits** (may vary depending on location):

TRAINING &
DEVELOPMENT

- **Development:** Look ahead - we are an organisation that encourages role exchange: If you are happy with SW Engineering, then you might become a Solution / Software Architect. If you are interested in Product Owner / Project Management, you can steer your career in that direction.
- **State of the art:** You get the opportunity to work on international projects, to collaborate with agile experts and to expand your knowledge while dealing with an interesting complex platform and marketplace.
- **Way of Working:** We have been using more than 15 years agile methods. Learn from this experience and still retain our start-up mindset.
- **Joy:** Good cooperation and togetherness are essential elements of our company philosophy.
- **Compensation:** For a contract in Austria: The minimum salary (considering Austrian IT collective agreement) is EUR 3.200,- gross per month on a full time basis. However, we offer a salary *according to local conditions and in line with the market, depending on your specific qualifications and professional experience.*
- Find out **more** about us and what's in it for you at: <https://www.beyondnow.com/en/company/careers/work-at-beyond/>
- **Apply online through the application tool** and upload your well-structured informative CV in English (+ in German would be an asset) and academic proof of success (transcript of records)! Please note that we cannot accept e-Mail applications.

We are looking forward
to your online application!
